

CARE + MAINTENANCE

HELPFUL TIPS:

DO use a cutting board in all kitchen countertop applications
DO use coasters or placemats under all glasses, particularly those containing alcohol or citric juices
DO use trivets under china, ceramics, silver or other objects that might scratch or scorch the surface
DO protect flooring applications by using walk-off mats or area rugs
DO dust mop floors frequently
DO clean surfaces with mild detergent or stone soap
DO thoroughly rinse and dry the surface after washing
DO blot up spills immediately

DON'T place hot items directly on the stone surface
DON'T use vinegar, lemon juice or other cleaners containing acids on marble, onyx, limestone or travertine surfaces
DON'T use cleaners that contain acid such as bathroom cleaners, grout cleaners or tub and tile cleaners
DON'T use abrasive cleaners such as dry cleansers or soft cleansers
DON'T mix bleach and ammonia; this combination creates a toxic and lethal gas
DON'T ever mix chemicals together unless directions specifically instruct you to do so

WHAT YOU SHOULD KNOW ABOUT CLEANING NATURAL STONE -

Natural stone can be classified into two general categories according to its composition: siliceous stone or calcareous stone. Knowing the difference is critical when selecting cleaning products. Siliceous stone is composed mainly of silica or quartz-like particles. It tends to be very durable and relatively easy to clean with mild acidic cleaning solutions. Types of siliceous stone include granite, slate, sandstone and quartzite.

Calcareous stone is composed mainly of calcium carbonate and will react to acidic foods such as lemons or tomatoes. This reaction will result in a dulling in surface sheen and change in texture, otherwise referred to as "acid etching". Cleaning products that work on siliceous stone may damage the surface of calcareous surfaces. Types of calcareous stone include marble, travertine, limestone and onyx.

As a general rule of thumb, whenever a spill occurs, immediately blot the spill with a paper towel. Don't wipe the area; it will spread the spill. Flush the area with plain water and a mild liquid dishwashing detergent. Rinse several times. Dry the area thoroughly with a soft cloth. Do not use products that contain lemon, vinegar or other acids on marble or limestone. Do not use scouring powders or creams; these products contain abrasives that may scratch the surface.

WHAT YOU SHOULD KNOW ABOUT CLEANING QUARTZ

Engineered quartz surfaces blend modern sophistication and timeless luxury with unbeatable strength and durability. The ever-lasting finish requires only simple and routine care to maintain its good looks. To clean quartz, we recommend using warm water and a mild detergent.

Quartz is Minimal Maintenance, Virtually maintenance-free, Quartz hard, non-porous surfaces require no sealing to renew its luster and are simple to clean. In most cases, soap and water or a mild detergent is enough to keep your Caesarstone surfaces looking like new. If necessary, use a non-abrasive soft soap along with a non-scratch or delicate scrub pad. Afterwards, thoroughly rinse with clean water to remove residue.

For stubborn stains or dried spills please refer to the manufacturer's website for better details on what is recommended.

A comprehensive care and maintenance plan helps ensure long-term satisfaction with a material choice. These recommendations are based on those from The Marble Institute of America & our Quartz manufacturers. If you have any questions or concerns regarding the information outlined here, please contact your Mega Granite Sales Consultant for more information.

IMPORTANT DETAILS

_____ **Graveyard:** In order to provide you with the lowest possible price, remnant (or graveyard as it is most often called) material is sold AS-IS. If for some reason the piece you choose breaks or is damaged, we will try to find a replacement graveyard piece for you, although we cannot guarantee a piece the same size and/or color.

_____ **Granite Color Samples:** No two pieces of granite are exactly the same. Therefore, samples of granite are not completely representative of final slabs selected.

_____ **Template layouts:** Template layouts and seams cannot be finalized until after template is done. You may set up an appointment with your sales representative for a template layout prior to fabrication.

_____ **Pardon our dust:** Remember, this is a construction job and there will be dust.

- Remove all items from your countertops and nearby walls, and place them in another room.
- Remove the top drawers of your cabinets and place in another room.
- Remove all items beneath the sink.
- Cover all items in the lower cabinets to shield them from dust.

_____ **Please be flexible:** We respect our customers' time and want to offer all our customers the same expert service. Installations may take longer than originally expected, and depending on the size, may require that we come back a second time to complete your job. On the day(s) of installation, it is important that you have a flexible schedule.

_____ **Existing backsplashes:** Because the installation of your new countertops is a construction project, any existing backsplashes or sheetrock is subject to removal, breakage and/or damage. Every effort will be made to avoid unnecessary removal or damage.

_____ **Please have your faucet and cook top on site the day of installation:**

SLAB SELECTION & APPROVAL

The selection process for stone frequently results in several visits to Mega Granite's Newnan Showroom location. Preliminary selection, pricing and sampling may take place of a number of days. Unfortunately, this sometimes leads to changes in availability of materials or slabs of a given material and/or size. In order to avoid disappointment, we offer the following as an aid to understanding the materials.

Materials are imported directly from the countries of origin. Italy and Brazil are important sources, along with Turkey, Spain, Greece, Norway, Taiwan, India and South Africa. This allows for greater control over quality, as well as favorable pricing. Color selection is "always" the overriding issue when purchasing slabs, with slab size being secondary.

Mega Granite and Marble always endeavors to supply materials of the finest quality. The various granites offered to you have been proven to be the most popular and readily available in the market.

The slabs that you examine today reflect what is currently available from inventory. These materials may not be available tomorrow, at any price or within any time frame. Please **DO NOT** assume that a material available today will be available tomorrow. Each bundle of slabs, or lots of tile, is different. We do not mix lots when supplying a job. **Granite and natural stone are products of nature, and are therefore subject to variance in color and veining.** Please also note that a sample that you have received will not be an actual sample for color match or veining pattern. The only way to guarantee the color, vein, pattern or placement of the material is to be involved in the selection of the stone.

NOTE: DUE TO THESE CONSIDERATIONS, WE PREFER, AND RECOMMEND, THAT CUSTOMERS FRIST APPROVE THEIR SLABS OF STONE (GRANITE, MARBLE, ECT.), BEFORE FABRICATION BEGINS, TO ENSURE THAT THEY ARE TRULY SATISFIED WITH THEIR CHOICE.

By placing your initials in the box you are **WAIVING** the opportunity to select and view your slabs.

By placing your initials in the box you **ACCEPT** the slabs selected, but waive the opportunity to view the final layout.

By placing your initials in the box you **ACCEPT** the layout performed on the material selected and viewed for your project.

Mega Granite does have the right to adjust layouts based on seam placement and size of job.

Apply by Phone
866-936-0602

When applying, you'll need your GreenSky Contractor Number.

81016070

Pick the Plan That Is Right for You

Option 1³

6 Months Deferred Interest and No Payments

Plan Number **3068**

Option 2⁴

12 Months Deferred Interest

Plan Number **4123**

¹ Financing for GreenSky[®] consumer credit programs is provided by a network of federally insured, federally and state chartered financial institutions without regard to race, color, religion, national origin, sex, or familial status.

² Fixed APR during the life of the loan. Subject to qualifying credit approval.

³ Subject to qualifying credit approval. Interest accrues during the promotional period but all interest is waived if the purchase amount is paid in full within 6 months.

⁴ Subject to qualifying credit approval. Interest accrues during the promotional period but all interest is waived if the purchase amount is paid in full within 12 months.

FAQs

Q: Why should I finance my project when I can pay cash or use a credit card?

Financing a project with GreenSky® allows you to conserve both your money and your equity, and typically offers a lower interest rate than a credit card. GreenSky has many promotional offerings with deferred interest benefits, but without your having to pay out of pocket all at once.¹

Q: What type of credit does GreenSky offer?

We offer unsecured loans with fixed interest rates. Unlike a revolving credit card, your non-promotional monthly payment amount is always the same.

Q: Where can I use my loan?

Use your GreenSky Account Number to pay for services and products offered by the contractor with whom you apply.

Q: How do I make a payment?

It's simple – pay online or by phone, or schedule automatic payments to be drafted from your bank account. The choice is yours. And there is never a penalty for paying off your loan early. Apply today at www.greenskycredit.com/consumer or call 866-936-0602.

Q: How do I pay my contractor?

Once approved, you will be provided a loan agreement and issued a 16-digit account number and expiration date. When you want to pay, just provide these numbers to your contractor to process the purchase as if it were a credit card.

Q: How long do I have to use my loan?

Once approved, you have four months to make your purchases.

Q: When is my first payment due?

Depends on your plan. Many deferred interest plans don't require a payment during the promotional period. The first payment on a budget-minded plan is typically due approximately 30 days after the first purchase.

Q: When does the Deferred Interest plan promotion window begin?

At the time of your first transaction.²

¹ Financing for GreenSky® consumer credit programs is provided by a network of federally insured, federally and state chartered financial institutions without regard to race, color, religion, national origin, sex, or familial status.

² Interest accrues during the promotional period but all interest is waived if the entire loan amount is paid in full before the end of the promotional period.
